HOW MUCH DOES IT COST TO REPAIR AN IPHONE SCREEN

Written by Phone Fashion

In September 2014, Apple released the iPhone that was made of metal and glass. From the beginning of the release, a lot of users have broken their phones by dropping it down unconsciously or suddenly. They remain to worry with their shattered screen plus try to know daily how much does it cost to repair an iPhone screen. They always search to find out the best solution for it.

Today, this post is only for them. Here, we'll try to give a satisfactory reply to this question that helps the iPhone user to repair their phone in the cheapest method.

Look into the answers below. And take a good decision to repair your exclusive iPhone 6.

IPHONE SCREEN REPAIR COST

Are your iPhone screen crushed with the LCD? If this happened, you can't repair only the screen without repairing the display. You should repair them together. Below, we try to give a regular cost price for screen and LCD replacement.

WARRANTY SERVICE:

How much does it cost to repair an iphone screen with warranty service? Apple iPhone service is excellent. If your iPhone screen needs repair, you must take an appointment Apple repair center. It'll the best trick at first. Apple gives a year warranty for the iPhone cover. The warranty service is great. If you have a warranty card, you can get a good service without any cost. So, don't worry about your broken screen of the iPhone. Take the warranty card and repair it with no charge.

DOES THE WARRANTY CARD WORK?

The warranty card that you have will just work if the original buyer of it from Apple is you. But this card won't work for the third party who bought from the first party. If you are a third party, a

free iPhone repair service isn't for you because Apple didn't record your name as the buyer. In this case, you have to repair the screen of your iPhone at their regular price.

REPAIR OPTION WITHOUT WARRANTY:

According to the Apple support page, you will be able to fix your damaged screen and display of the phone through their OOW or Out-Of-Warranty service. This service is great for your exclusive iPhone. If the repair of them is near to your residence, you just call them and get their service with no trouble.

It will excellent for you if you sign up for the AppleCare+ plan. You can cover screen repair costs using it. Two unpleasant incidents of accidental damage can cover with the help of this AppleCare+ plan every 2 years. The service fee depends on the condition of your plan. But you have to pay the out-of-warranty fee if you don't have an AppleCare+ plan.

REGULAR REPAIRING COST OF APPLE:

How much does it cost to repair an iPhone 6 screen? For Apple, your iPhone repairing cost starts from $129 and it is only for the older phone. But the cost for the brand new Apple iPhone will go up to $ 329. Those prices will work for that iPhone which one is out-of-warranty. Before taking a repair service, you might accomplish their pre-service instructions. It helps you to protect your information including your ID and the proof of purchase.

REPLACEMENT COST:

It is easy and cheap to replace any part of Apple. Possible, you can do it with no fee if your iPhone is still under warranty. How much money does it cost to repair an iphone screen? Apple charges $ 109 to fix a broken iPhone 6 screen. You also can pay $129 to repair a broken iPhone 6s plus screen. If you purchased AppleCare+, you need to pay only $99 to fix for both the 6s and 6s plus.

If you are under warranty and the screen is just in a hairline, Apple replaces the screen for free. To replace the screen Apple store is the best plus they take one hour to fix it with their expert.

REGULAR REPAIRING COST OF THE THIRD PARTY:

How much does it cost to repair an iPhone 6s screen? If you will go to the third party to repair your iPhone, the regular cost will start from $80 to $140. You can go to the third party when your warranty card will be spared or the Apple repair center won't near to you. in this serious

case, you must find out the best repair center who has experience about to repair the new model iPhone screen.

Before going to them, must call their center and try to know their regular price. You must inform them which parts need to repair and how much time they need to return after repairs.

REGULAR KITS COST:

There is another option to replace your iPhone screen yourself with kits cost. The range will start from $40 to $80 including new glass. Though the price is low than Apple, it works well. You know that replacing the screen isn't so easy than replacing the entire touch screen. To do this job, you need to separate the glass from the touch screen and replace the new one using glue. This work will perfect if you can do it professionally.

Repairing the screen by you will cost at least $100 to $150 for both glass and glue. Even after finishing the work, you can't test it properly and won't understand how it works well. Fixing with the DIY method, the risk will stay and something new wrong will create. So it'll better to go to the Apple store to fix the damaged screen efficiently.

FINAL THOUGHT:

In summary, don't think anymore how much it cost to repair an iPhone screen. Plus, you need not think where should go. If you need to repair your broken iPhone screen and you have a valid warranty card, just go Apple store and fix it. Without a valid warranty card, you also can go there.

If you can't go to the Apple store, you must meet a mobile iPhone repair technician who works expertly. The cost of the screen replacement can't differ more. You can get professional service at reliable cost in repairing center and it'll an amazing for your device.
